FREEZING FOODS

COOKED FOODS - Do not overcook. Chill promptly before freezing. Use seasonings sparingly as some will change during storage. It is best to add most seasonings when reheating. Thaw in refrigerator or reheat from frozen state. Do not refreeze after thawing or heating. Storage Time: 2 to 3 months.

FISH - Keep fish on ice from the time they are caught. Clean as for cooking. Cut in fillets, steaks or leave whole. Fish can be frozen covered with water in air-tight container. Storage Time: 9 months at 0°F. Thaw in refrigerator or under cold running water.

GROUND BEEF - Freeze in amounts suitable for cooking at one time. Storage Time: 4 to 6 months. Thaw in refrigerator.

PECANS - Pack shelled or unshelled in moisture-vapor-proof containers in desired quantities and freeze. Thaw at room temperature. Storage time: 12 months.

PIES - Baked pies: Cool completely, then package in freezer paper. Thaw 45 minutes at room temperature. Unbaked pies: These are flakier, more tender and have fresher flavor. Double crust pies (fruit or mince) are the very best. Do not cut vents in double crust pies until ready to bake. Bake pie in the frozen state in 425°F oven 45 to 50 minutes. Storage time: 2 to 3 months.

SOFT-SHELL CRABS - Clean as for frying. Freeze. Storage Time: 1 to 2 months. Thaw in refrigerator.

SOUP - Chill promptly before freezing. Use seasonings sparingly as some change during storage. Do not freeze potatoes in soups; add potatoes during reheating. Thaw in refrigerator or reheat from frozen state. Freeze in family-size portions. Storage Time: 2 to 3 months.

STRAWBERRIES - Wash quickly and gently in iced water. Lift berries from water. Remove hulls. Slice or leave whole. Dry Sugar Pack: Add 3/4 cup sugar to each quart berries; mix thoroughly. Syrup Pack: Prepare syrup by combining 5 cups sugar and 4 cups boiling water. Chill. To each quart, add 4 teaspoons ascorbic acid mixture. Cover berries with cold syrup. Place into freezer container, leaving 1/2-inch headspace. Storage Time: 12 months. Unsweetened Dry Pack: This method may be desirable for special diets or for use in baking. Most fruits have better flavor, color and texture when packaged in sugar or syrup.

 TOMATOES - Scald tomatoes in boiling water 1/2 minute. Dip in cold water, peel and quarter. Pack into freezer containers with 1/2 teaspoon salt per pint. Freeze and use in any recipe calling for cooked tomatoes. Storage Time: 1 year.

CRAWFISH - Immerse live, in brine bath (1 cup salt to 1 gallon water) for 20 seconds. Cook in seasoned water. Remove edible meat and pack. Freeze. Thaw in refrigerator.

FIGS - Sort, wash and cut off stems. Peel if desired. Slice or leave whole. For syrup pack, use 40% syrup (3 1/4 cups sugar to 4 cups boiling water) with 1/2 cup lemon juice or 4 teaspoons ascorbic acid mixture added to each quart of syrup. Pack into containers and cover with cold syrup, leaving 1/2-inch head space. Seal. For dry pack: add 2/3 cup sugar to each quart of figs. Mix thoroughly. Pack into containers, leaving 1/2-inch space. 1/2 cup wine vinegar
12 whole cloves
3 pieces stick cinnamon

Put whole oranges in saucepan, add 1 quart water. Bring to a boil; lower heat and simmer 30 minutes or until peel is tender. Overcooking will cause skin to split. Drain and slice. Combine remaining ingredients and stir over low heat until sugar is dissolved. Bring to a boil, add orange slices and simmer about 20 minutes. Oranges may be spooned into hot sterilized jars and sealed for future use. Serve as a relish. Yield: about 6 cups.
